Geography BSc (Hons) - University of Central Lancashire

For proponents of the view that anthropogenic climate change will become a 'threat multiplier' for instability in the decades ahead, the Syrian civil war has become a recurring reference point, providing apparently compelling evidence that such conflict effects are already with us.

Climate change and the Syrian civil war revisited ...

-Randy Hanzlick, MD. February 2002. NOTE: The history presented here is derived in part from documents but much of it is based on memory, personal experience, and the memories and words of others.

Georgia Death Investigation History - Fulton County News

An overview of the mechanisms of succession has been produced by Connell and Slatyer (1977, American Naturalist 111: 1119-1144). Connell and Slatyer propose three models, of which the first (facilitation) is the classical explanation most often invoked in the past, while the other two (tolerance and inhibition) may be equally important but have frequently been overlooked.
