1879. First psychology laboratory Wilhelm Wundt opens first experimental laboratory in psychology at the University of Leipzig, Germany. Credited with establishing psychology as an academic discipline, Wundt's students include Emil Kraepelin, James McKeen Cattell, and G. Stanley Hall.

The History of Psychology - Learner

In popular psychology and analytical psychology, inner child is an individual's childlike aspect. It includes what a person learned as a child, before puberty. The inner child is often conceived as a semi-independent subpersonality subordinate to the waking conscious mind. The term has therapeutic applications in counseling and health settings.

Inner child - Wikipedia

The animators and writers at Pixar have often cited that the movies they make are for adults, just as much as they are for kids. As such, a certain amount of adult humor slips into their projects that kids may not understand. In almost every short, Mater is seen flirting with Mia and Tia, who...
