

Agricultural Botany

Agricultural Botany

Journal of Agricultural science and Botany is a peer reviewed, open access journal that aims to project the latest research discoveries and innovations in the field of agricultural science and botany.

Agricultural Science and Botany | Peer Reviewed Journal

Our People. Agricultural Plant Biology focuses on plants used for cover-crops, food, fiber, fuel and turf. The program has a strong research emphasis on plant responses to both abiotic and biotic stresses, reproductive biology at the level of the gene to the crop production system, and breeding for enhanced yield in a resource-limited environment.
