2003+ Ford Expedition & Lincoln Navigator Air Ride Suspension Down Tips

From 1997 to 2002, the air ride module did receive inputs from the vehicle, including vehicle speed and door switch information. But, the air ride control module did not talk to the vehicle over the serial data buses. To access codes and perform certain diagnostic tests, a Ford Super Star II or similar tool is required to communicate with the ...

Crown Victoria Air Ride Service | Know Your Parts

The ride control module is part of the air suspension system in your vehicle if it is equipped with air suspension. This system works with a height sensor, solenoid, air bags, air compressor, and the control module. The computer and air compressor determine how much air should be put into the air bags, and they are deflated or inflated depending on the reading.
