This paper is focused on biometric face recognition systems that can be or currently are implemented in ABC electronic gates (e-gates). In order to offer to the reader a comprehensive review of this topic, the ABC (Frontex, 2012a) is defined and its different topologies are described in the following. An ABC (Frontex, 2012a) is a fully automated system that performs border checks.

### **Automated border control e-gates and facial recognition ...**

An automated pool cleaner is a vacuum cleaner intended to collect debris and sediment from swimming pools with minimal human intervention. Popularly dubbed a "creepy-crawly" or "Kreepy Krauly" in South Africa, it is one of several types of swimming pool vacuum cleaners. Other major types are battery-powered or manually powered wands effective only for very small pools, kiddie or wading pools ...
