### Antibiotics

Many antibiotics have been shown to be effective and are used as second-line agents. However, further study is required for some of the most recently introduced antibiotics, such as the fluoroquinolones, to determine their place in the treatment of Listeria infections.

### Treatment of listeriosis

Drooling is also caused by certain heavy metal toxins (mercury and thallium); from exposure to irreversible acetylcholinesterase inhibitors (insecticides and nerve agents); and by a handful of other drugs (e.g., yohimbine, mucosa-irritating antibiotics).

### Drug-induced sialorrhea

Hi there. The email you just opened, or link you just clicked, was not sent by FeedBlitz. It was junk, sent by an unknown third party who is not using FeedBlitz to send their emails or manage their RSS feeds. FeedBlitz hasn't been hacked; we just didn't send you that email or generate that link....
