They added a mediocre br months post launch after initially using the mode for marketing early on. Game also happens to have launched barebones as fuck, and fans that have supported the series for nearly two decades probably don't like a br mode being the focus post launch, not when the game launched severely light on content.

The Shokkjump Dragsta, a racer that uses shokk-attack technology to project itself ahead of the competition. The thing basically has a chance to pull a Back to the Future 88-mph teleport... emphasis on chance, because it doesn't always work and the attempt could leave you in a bad spot on the battlefield, which seems like a very orky predicament.
