

## *Astm D 1556*

**Astm D 1556**

ASTM D1556 / D1556M-15e1, Standard Test Method for Density and Unit Weight of Soil in Place by Sand-Cone Method, ASTM International, West Conshohocken, PA, 2015, [www.astm.org](http://www.astm.org).

**ASTM D1556 / D1556M - 15e1 Standard Test Method for ...**

ASTM D1556 2007 Edition, September 15, 2007. Complete Document Standard Test Method for Density and Unit Weight of Soil in Place by Sand-Cone Method Includes all amendments and changes through Change/Amendment , September 15, 2007. View Abstract Product Details Document History ...

**ASTM D1556 : Standard Test Method for Density and Unit ...**

ASTM D1556/D1556M-15e1 Standard Test Method for Density and Unit Weight of Soil in Place by Sand-Cone Method. 1.1 This test method may be used to determine the in-place density and unit weight of soils using a sand cone apparatus.

**ASTM D1556/D1556M-15e1 - Standard Test Method for Density ...**

D1556 - 07 Standard Test Method for Density and Unit Weight of Soil in Place by the Sand-Cone Method , acceptance tests, compaction tests, degree of compaction, density tests, earthfill, embankments, field control density, field tests, inplace density, inplace dry density, in situ density, relative density, sand cone, soil compaction, soil tests, unit weight,

**ASTM D1556 - 07 Standard Test Method for Density and Unit ...**

Standard Test Method for Density and Unit Weight of Soil in Place by Sand-Cone Method1 ... Last previous edition approved in 2000 as D 1556 - 00. 2 For referenced ASTM standards, visit the ASTM website, [www.astm.org](http://www.astm.org), or contact ASTM Customer Service at [service@astm.org](mailto:service@astm.org).

**Standard Test Method for Density and Unit Weight of Soil ...**

ASTM D1556-07 Standard Test Method for Density and Unit Weight of Soil in Place by the Sand-Cone Method. 1.1 This test method may be used to determine the in-place density and unit weight of soils using a sand cone apparatus.

**ASTM D1556-07 - Standard Test Method for Density and Unit ...**

GeoTesting Express is a provider of Soil Testing Services - ASTM D1556, Standard Test Method for Density and Unit Weight of Soil in Place by the Sand-Cone Method

**ASTM D1556 | Testing Services | Standard Test Method for ...**

Neither specifies 95%, or 98% or . . . That is the specification to choose. For instance, in road construction, you might compact the embankment to 93% maximum dry density D-1556, the subgrade to 95% maximum dry density D-1556, the subbase and base courses to 98% maximum dry density.

**ASTM D-698 or D-1556 Proctor Method - ASTM (testing ...**

1.3 This test method may also be used for the determination of the in-place density and unit weight of intact or in situ soils, provided the natural void or pore openings in the soil are small enough to prevent the sand used in the test from entering the voids. The soil or other material being tested should have sufficient cohesion or particle attraction to maintain stable sides on a small ...

replacement sand for in-situ density tests astm d 1556-07 - bs 1377: part9 CHARACTERISTICS This sand is made of dry natural siliceous sand (silica content higher than 97 %), the water content of which is lower than 0,1 %.

**Standard sand BS 1377 PART 9 - Standard Sand**

The ASTM Nos are correct according to my Vol.04.08, but its a bit old, 1993. On the original subject, I found an interesting article at [www.stratageotech.com](http://www.stratageotech.com) titled Engineering Fills and Compactions. They have an interesting discussion which may be ammunition for compaction under a building.
