The power of an Ethernet LAN (Local Area Network) is tremendous when applied to a factory floor or other industrial application. However, to take full advantage of its features, it requires more than simple wire connections from one device to another.

Guide to Ethernet Components and Terminology - B&B Electronics

Using matchers. ScalaTest provides a domain specific language (DSL) for expressing assertions in tests using the word should. Just mix in Matchers, like this: `import org.scalatest._ class ExampleSpec extends FlatSpec with Matchers {` You can alternatively import the members of the trait, a technique particularly useful when you want to try out matcher expressions in the Scala interpreter.

Using Matchers - ScalaTest

Re: solid lifter valve adjustment 08-12-06 02:24 AM - Post# 983218 In response to greg_moreira Unfortunately I know very little about the motor. Guy I got it from knew less than nothing about the car, it barely ran so I started trying to tune it up, changed carb and distributor, found a broken valvespring and changed that, no amount of adjusting could get it to run well.
