Maryland Black Bear Fact Sheet

Dealer, investor, or speculator on a stock or commodity exchange, who expects the prices of securities or commodities to fall in the near future and, therefore, sells his or her investment portfolio in the hope of constructing it later at a lower price. See also bull.

What is bear? definition and meaning - BusinessDictionary.com

Prospect theory. To understand loss aversion bias, we need to talk about prospect theory which was propounded by Daniel Kahneman & Amos Tversky in 1979. For this Daniel Kahneman received Nobel Prize in the year 2002 (but Tversky couldn't as by this time unfortunately he died).. Prospect theory talks about how people choose between different prospects and how they perceive the likelihood of ...

Loss Aversion Bias | Why you should not fall in this trap?

Trapping pits are deep pits dug into the ground, or built from stone, in order to trap animals. European rock drawings and cave paintings reveal that elk and moose were hunted since the stone age using trapping pits. In Northern Scandinavia one [who?] can still find remains of trapping pits [example needed] used for hunting elk, reindeer, wolves and bears. These pits, which can measure up to 4 ...

Mouse Trap Programming. Use the Mouse_Trapp program for the Mouse Trap. This is a simple program that just waits for the touch sensor to be pressed before closing the trap, then waits for the touch sensor to be released to open the trap (if the mouse was missed or gets away), then repeats with a loop.

NXT Mouse Trap

Noun []. bear (plural bears) . A large omnivorous mammal, related to the dog and raccoon, having shaggy hair, a very small tail, and flat feet; a member of family Ursidae. (figuratively) A rough, unmannerly, uncouth person.[1579] An investor who sells commodities, securities, or futures in anticipation of a fall in prices[1744] (slang, US) A state policeman (short for smokey bear).

bear - Wiktionary

A grid was established in the study area and 37 locations were chosen for hair snares. The wolf hair snares aren't strands of wire across trails; instead, short strands of barbed wire are attached to flat boards nine by six inches across to create hair traps.

Be safe in bear habitat. It's normal to be frightened when you encounter a bear. The reality is that most encounters with bears rarely lead to aggressive behaviour and attacks are even rarer.

Bear Encounters in the Backcountry - BearSmart.com

Bears are among the least productive mammals in North America. In theory, a male and female black bear born this year - if they breed as soon as they reach sexual maturity and as often as possible, and if all their offspring survive to do the same - could in the space of ten years have grown to a population of 15 bears (assuming none died).

Bear Reproduction - BearSmart.com

trap 1 (trăp) n. 1. A contrivance for catching and holding animals, as a concealed pit or a clamplike device that springs shut suddenly. 2. A stratagem for catching or tricking an unwary person. 3. A confining or undesirable circumstance from which escape or relief is difficult: fell into poverty's trap. 4. A device for sealing a passage against the ...
