An air compressor is a device that converts power (using an electric motor, diesel or gasoline engine, etc.) into potential energy stored in pressurized air (i.e., compressed air).By one of several methods, an air compressor forces more and more air into a storage tank, increasing the pressure. When tank pressure reaches its engineered upper limit, the air compressor shuts off.

Air compressor - Wikipedia

Carrier Parts Carrier is a company that found its niche in home air quality long ago. Since the original Carrier home and business climate control products were marketed in 1902, the Carrier company has expanded its approach to include advanced technological innovations.
