Chapter 7. Cellular Automata "To play life you must have a fairly large checkerboard and a plentiful supply of flat counters of two colors. It is possible to work with pencil and graph paper but it is much easier, particularly for beginners, to use counters and a board."

The Nature of Code

Below is a list of chapters from the Campbell's Biology, 8th Edition textbook that we have slides for. These slides will cover all of the key points of the chapter and will be useful when studying for the AP Biology exam or any other Biology test.

Campbell's Biology, 8th Edition | CourseNotes

Reproduction (or procreation or breeding) is the biological process by which new individual organisms - "offspring" - are produced from their "parents". Reproduction is a fundamental feature of all known life; each individual organism exists as the result of reproduction. There are two forms of reproduction: asexual and sexual. In asexual reproduction, an organism can reproduce without the ...
