### **Cisco Icnd2 Third Edition**

Figure 5-1 shows a typical choice of using a /30 prefix (mask 255.255.255.252) on point-to-point serial links, with mask /24 (255.255.255.0) on the LAN subnets. All subnets are of Class A network 10.0.0.0, with two masks being used, therefore meeting the definition of VLSM. Oddly enough, a common mistake occurs when people think that VLSM means “using more than one mask in some internetwork ...

Hi Friends, What is the difference between job responsibilities of L1, L2, L3 network professionals ? I always believed that : L1 technicians deal with physical connections and hardware.

### **Difference between L1, L2, L3 Professionals ? - 3619 - Cisco**

Hi . This is not correct. Please refer to: Candidates who fail an exam must wait a period of five (5) calendar days, beginning the day after the failed attempt, before they may retest for the same exam. Once passed, a candidate must wait a minimum of 180 days before taking the same exam with an identical exam number.

The CCNA exam(s) require a near-perfect fluency in subnetting. Success requires speed and accuracy in answering the many questions you will see on this topic. The key to this level of fluency is practice—you must work at your skills until they become second nature. The following sections discuss binary and hexadecimal numbering systems as compared with the more familiar decimal system.
