Asset-Based Approaches. Basically, these business valuation methods total up all the investments in the business. Asset-based business valuations can be done on a going concern or on a liquidation basis. A going concern asset-based approach lists the business's net balance sheet value of its assets and subtracts the value of its liabilities.

The Math Behind Your Company Valuation. The price an investor is willing to pay for an asset relates to how risky he or she perceives the future stream of profits to be: the riskier the investment, the higher the return an investor will demand. Today, investors can put their money into relatively safe bonds and get a few percentage points of return,...
