Programmer/Analyst Aptitude Test Questions that have ...

I think a more important "test" would be to show them a simple programming language / environment that they can play around with. For example, processing or python . If they can learn and enjoy using such a language - maybe while solving a simple task or two - then that is probably the best "aptitude test" you could ask for.

learning - Programmer aptitude test - Software Engineering ...

Neither of these first two types of test require any knowledge of programming. A programming simulation involving pseudocode, control structures (e.g. loops), look-up tables, sets, arrays, boolean true/false, looping and other programming structures. These are given to experienced programmers to assess their competence.
