Survival-of-the-fittest is a misleading concept unless it includes specifically a human needs dimension in addition to physical goals. It is the struggle to satisfy non-material human needs that is the prime source of conflict. It is only in this sense that it can be said that 'man is aggressive.'

**Conflict Resolution: The Human Dimension - John W. Burton ...**

Human needs theories propose that all humans have certain basic universal needs and that when these are not met conflict is likely to occur. Abraham Maslow proposed a hierarchy of needs beginning with the need for food, water, and shelter followed by the need for safety and security, then belonging or love, self-esteem and, finally, personal ...
