Bacteria, viruses, fungi, and parasites can inhabit your body without causing acute disease. Their numbers may be controlled by your immune system until for some reason your immune system is weakened, then they can multiply uncontrollably. Even when their numbers are limited by your immune system, they are producing waste products that burden your body, and may be damaging your tissues and ...

Back in March 2015, I had asked new Afford Anything subscribers to answer two questions: What's your wildest dream? What's keeping you from getting there? After reading through thousands of responses, I heard a theme emerge: 'I don't know how to invest, and I'm afraid of making expensive mistakes.' Let's tackle that today. As a disclaimer, today's article is NOT about real estate investing.
