The Problem Few other subjects in school take the trouble to help students learn how to generate original ideas, designs, and composition. In art class, even though the ability to generate ideas is central to the process of art and central to the success of artists, many art teachers do not realize that idea generation can be intentionally taught.

Constructivist teaching is based on constructivist learning theory. Constructivist teaching is based on the belief that learning occurs as learners are actively involved in a process of meaning and knowledge construction as opposed to passively receiving information. Learners are the makers of meaning and knowledge.

Constructivist teaching methods - Wikipedia

A teaching method comprises the principles and methods used by teachers to enable student learning. These strategies are determined partly on subject matter to be taught and partly by the nature of the learner. For a particular teaching method to be appropriate and efficient it has to be in relation with the characteristic of the learner and the type of learning it is supposed to bring about.
