A thesis or dissertation is a document submitted in support of candidature for an academic degree or professional qualification presenting the author's research and findings. In some contexts, the word "thesis" or a cognate is used for part of a bachelor's or master's course, while "dissertation" is normally applied to a doctorate, while in other contexts, the reverse is true.

You don't plan to run formal tools yourself but you know that effective management will require some understanding. In verification planning, you certainly need to know where formal can play a role and where it may not be suitable, what effort and expertise should be planned for in using these techniques (like most verification techniques, these generally aren't push-button) and how you ...
