(Click here for bottom) B b B Basic. Not that it was ever called that, but the B programming language was a simplified version of BCPL, in the name of which the B stood for Basic. B was a typeless language like BCPL, and like BCPL also it is remembered today for its genealogical connection to C, explained at the Algol entry. B was created in 1970 by Ken Thompson for the first Unix system on the ...
