Ancient Medicine Second

The medicine of the ancient Egyptians is some of the oldest documented. From the beginnings of the civilization in the late fourth millennium BC until the Persian invasion of 525 BC, Egyptian medical practice went largely unchanged but was highly advanced for its time, including simple non-invasive surgery, setting of bones, dentistry, and an extensive set of pharmacopoeia.

Science including medicine has a long history in Middle and Near East and goes back to the ancient Mesopotamian period (Beginning with Sumer 3000BC). There are many cuneiform tablets from cities as ancient as Uruk (2500 BC). The bulk of the tablets that do mention medical practices have survived from the library of Assurbanipal at Nineveh (668BC) Assyria.

Practitioners of Chinese medicine usually receive limited training in moxibustion therapy. The training is mainly comprised of presentation of a few basic moxa techniques and a listing of some indications for use of moxibustion (e.g., to treat cold syndromes) and contraindications (e.g., in heat syndromes). The actual experience of utilizing moxibustion therapy is often confusing.

According to legend, Ancient Rome was founded by the two brothers, and demi-gods, Romulus and Remus, on 21 April 753 BCE. The legend claims that, in an argument over who would rule the city (or, in another version, where the city would be located) Romulus killed Remus and named the city after himself. This story of the founding of Rome is the best known but it is not the only one.

Minerva was the Roman goddess of wisdom, medicine, commerce, handicrafts, poetry, the arts in general, and later, war. In many ways similar to the Greek goddess Athena, she had important temples in Rome and was patron of the Quinquatras festival.. Originally, Minerva was an Italian goddess of handicrafts closely associated to the Greek goddess Athena. The scholarly consensus, however, is that ...
