Vegetation research at ACCS focuses on the biology of rare and invasive plant species and the distribution, status, and trend of vegetation communities across Alaska. Research on rare and invasive plants includes habitat modeling , biogeography, reproductive ecology and evolution, and ecological impacts of non-native plants .

Vegetation Ecology and Botany - Alaska Center for ...

World-Ecology is a global conversation of academics, activists, and artists committed to understanding human relations of power, production, and environment-making in the web of life. An evolving conversation rather than a theory, the world-ecology approach is unified by a critique of Nature-Society dualisms, a world-historical interpretation of today's planetary crisis, and an emphasis on the ...

World-Ecology - Wikipedia

Vegetation is an assemblage of plant species and the ground cover they provide. It is a general term, without specific reference to particular taxa, life forms, structure, spatial extent, or any other specific botanical or geographic characteristics. It is broader than the term flora which refers to species composition. Perhaps the closest synonym is plant community, but vegetation can, and ...
