ENDERS - The Sequel to Starters - Lissa Price

ENDERS by Lissa Price is the phenomenal sequel to STARTERS, and well worth the wait. Even though it's been nearly two years since STARTERS was released, the beginning of ENDERS immediately pulls the reader back into Callie's dangerous world. Hang on tight - the plot is fast-paced with unpredictable twists and turns and a chilling ...

Enders (Starters, #2) by Lissa Price - Goodreads

In "Enders", the second and final novel in the Starters Series by Lissa Price, 16-year-old Callie is left with a chip in her body that Prime Destinations' CEO, The Old Man, can use to peak inside her head. From the looks of it, he's even able to take control of every single Starter that has a chip inside their head.

Enders (2014) About book: This book was very slow at some points and too fast at others. It seems like there should be more balance. I read this one because I got through the first and wanted to find out how it ended, but I was not impressed.

Starters by Lissa Price | PenguinRandomHouse.com: Books

Enders is. Starters is one of the best dystopian books ever written and so, Enders had a tough act to follow. I was also a bit worried because it had been so long since I had read Starters (I read it in Feb '12). Enders functions brilliantly as both a sequel and a series conclusion; I'm even 100% convinced that Enders is even better than Starters.
