Enemy Coast Ahead Bomber Crews

The Junkers Ju 87 or Stuka (from Sturzkampfflugzeug, "dive bomber") was a German dive bomber and ground-attack aircraft. Designed by Hermann Pohlmann, it first flew in 1935. The Ju 87 made its combat debut in 1937 with the Luftwaffe's Condor Legion during the Spanish Civil War and served the Axis forces in World War II. The aircraft was easily recognisable by its inverted gull wings and fixed ...

NZ Bomber Command Association News

The best-known German strategic bombing campaign during World War I was the campaign against England, although strategic bombing raids were carried out or attempted on other fronts. The main campaign against England started in January 1915 using airships. From then until the end of World War I the German Navy and Army Luftstreitkräfte mounted over 50 bombing raids on the United Kingdom.

At an AFA Mitchell Institute for Aerospace Studies event on Capitol Hill this past October commemorating the 15th anniversary of the start of OEF—and specifically the B-2 strikes that paved the way for the campaign—retired Lt. Gen. David A. Deptula said the stealth bombers were chosen to spearhead the war because of the threat.

Too Late For The War. Strangely, as the Canadian-built Lancasters that had operated during the war were returning home, newly built aircraft such as FM159 were being flown to England, even though the war in Europe had ended. After spending four months in England, FM159 returned to Canada, arriving safely at Yarmouth, Nova Scotia to join others in temporary storage.

Authors' Notes: [1] According to a widespread theory, in case of I-17 the locations of the hangar/catapult and the deck gun were reversed. This notion is not supported by photographic evidence or eyewitness accounts, all indicating that I-17 had the same layout as the other submarines of her class.
