3. Dimension 1 SCIENTIFIC AND ENGINEERING PRACTICES. From its inception, one of the principal goals of science education has been to cultivate students' scientific habits of mind, develop their capability to engage in scientific inquiry, and teach them how to reason in a scientific context [1, 2]. There has always been a tension, however, between the emphasis that should be placed on ...

2. How to write a white paper. Starting a white paper can be a daunting task. So much information and research are required that it's easy to get lost in that portion of the work and let it become a roadblock to actually putting things on paper.. Even after the writing itself has begun, white papers are tricky to do well. Simply listing statistics without some form of narrative arc is a ...
