### **Desert Paper and Envelope**

An envelope is a common packaging item, usually made of thin, flat material. It is designed to contain a flat object, such as a letter or card.. Traditional envelopes are made from sheets of paper cut to one of three shapes: a rhombus, a short-arm cross or a kite. These shapes allow for the creation of the envelope structure by folding the sheet sides around a central rectangular area.

**Folding Your Own Envelope -Origami Style: 30 Steps**

Abstract: In this paper, we propose a computational model of the recognition of real world scenes that bypasses the segmentation and the processing of individual objects or regions. The procedure is based on a very low dimensional representation of the scene, that we term the Spatial Envelope. We propose a set of perceptual dimensions (naturalness, openness, roughness, expansion, ruggedness ...
