ADB is helping Bangladesh develop climate-resilient infrastructure in eight vulnerable coastal pourashavas (secondary towns). The project will include investments in water supply and sanitation facilities, cyclone shelters, emergency access roads and bridges, and other municipal infrastructure. It will also strengthen urban planning and disaster preparedness, and conduct outreach activities.

Table 1 summarises some our key hypothesised mechanisms by which climate change may undermine human security and may, in conjunction with an array of non-climate specific factors, increase the risk of violent conflict. It is important to stress that climate change will not undermine human security or increase the risk of violent conflict in isolation from other important social factors.

Climate change, human security and violent conflict ...

Food security, as defined by the United Nations' Committee on World Food Security, means that all people, at all times, have physical, social, and economic access to sufficient, safe, and nutritious food that meets their food preferences and dietary needs for an active and healthy life.
