The human leg, in the general meaning, is the entire lower limb of the human body, including the foot, thigh and even the hip or gluteal region. However, the definition in human anatomy refers only to the section of the lower limb extending from the knee to the ankle, also known as the crus. Legs are used for standing, and all forms of locomotion including recreational such as dancing, and ...

If the 4th-10th house axis is stimulated by this eclipse, issues surrounding public and private lives, as well as attention to career and to family, are stimulated. The fourth house rules our instinctual needs, the domestic scene, our needs for security, and our focus on family and home life as well as relationships with family.
