Examining Factors Affecting Diversity In

Research highlights Higher educational programmes have the possibility to enhance students' self-efficacy. Social cognitive theory based programmes can successfully enhance students' self-efficacy. Several factors based on social cognitive theory enhance student's self-efficacy. Research provides evidence for the potency of the main sources of self-efficacy.

Factors affecting students' self-efficacy in higher ...

Introduction. Honey bees (*Apis mellifera*), bumble bees (*Bombus* spp.), and other insects play a vital role in ecosystems as plant pollinators. The annual estimated value of crops directly dependent on insect pollination worldwide is \$175 billion [1 •] and approximately \$17-18 billion in both North America and the European Union [2, 3]. Wild, native, and managed bee species perform the majority ...

Abiotic and biotic factors affecting the replication and ...

Robin L. Lumsdaine. Recent retirement research has focused on factors affecting the retirement decision, reflecting the notion that retirement has become voluntary (Quinn, Burkhauser, and Myers, 1990, document the transition over the last four decades from "involuntary" retirement due to health reasons to the current situation in which most people choose to retire).

3 FACTORS AFFECTING LABOR SUPPLY DECISIONS AND RETIREMENT ...

As can be seen in the Framework, the Process Factors are embedded within the context of the community. The relationship between Contextual Factors and Process Factors is reciprocal and mutually influential. Contextual Factors are characteristics of the ecology/environment that are related to the ...

Kathleen Brown-Rice. The theory of historical trauma was developed to explain the current problems facing many Native Americans. This theory purports that some Native Americans are experiencing historical loss symptoms (e.g., depression, substance dependence, diabetes, dysfunctional parenting, unemployment) as a result of the cross-generational transmission of trauma from historical losses (e ...

Captive breeding is the process of maintaining plants or animals in controlled environments, such as wildlife reserves, zoos, botanic gardens, and other conservation facilities. It is sometimes employed to help species that are being threatened by human activities such as habitat loss, fragmentation, over hunting or fishing, pollution, predation, disease, and parasitism.

Captive breeding - Wikipedia

2 THE NATIONAL INSTITUTES OF HEALTH AS A GRANT-MAKING ORGANIZATION. NIH is the steward of medical and behavioral research for the Nation. Its mission is to seek fundamental knowledge about the nature and behavior of living systems and the application of that knowledge to enhance health, lengthen life, and reduce illness and disability.

NIH Grants Policy Statement (2013)

Priority Focus Areas The four main goals outline the broad scope of NIDA's strategic objectives over the next 5 years. Across these goals and objectives, four priority focus areas have been identified that present unique opportunities to leverage over that time frame. These areas include:
