

## *Figure Painting Guide*

### **Figure Painting Guide**

Remember you're painting something that's only about 6 inches tall so you won't get the shading and details unless you paint it on, just like you're painting a picture on canvas. Preparation You can't just take a figure out of the package and start painting it. You need to wash your figure with warm soapy water first.

### **Jin's Basic Custom Figure Painting Guide - Angelfire**

The biggest myth surrounding miniature painting and modelling is that some people are born with the talent to paint better than others. Well the truth is that those who can model and paint miniatures figures very well have consistently dedicated long periods of their time experimenting and practicing their craft.

Keep metallic paint and normal paint separated in any way you can; 2 bottles of water for cleaning the brush, 2 palettes (or 2 ends of it), use different brushes for different paints OR really wash them well between colours. Metallic paint has small pieces of metal in there, and they will end up in your normal paint eventually.
