Slipping Transmission Easy Fix - YouTube

"Slipping" is the sensation that your transmission isn't connected to your engine when you press the accelerator. This happens in manual transmission vehicles when the clutch wears out and loses grip intermittently. The F-150's transmission has been automatic only since 2004, but "slipping" still happens for a number of reasons.

Ford F-150: Why is My Transmission Slipping? | Ford-trucks

Transmission is 'slipping'. Internal mechanical failure is the root cause of transmission 'slippage'. A low level of transmission fluid (usually due to a transmission fluid leak) can also cause the transmission to slip.
