

## *Forum Global Biodiversity Conservation And The Alleviation*

### **Forum Global Biodiversity Conservation And**

Biodiversity is not evenly distributed, rather it varies greatly across the globe as well as within regions. Among other factors, the diversity of all living things depends on temperature, precipitation, altitude, soils, geography and the presence of other species. The study of the spatial distribution of organisms, species and ecosystems, is the science of biogeography.

### **Biodiversity - Wikipedia**

Biodiversity and mainstreaming. Biodiversity, or biological diversity, stands for the variability among living organisms from all sources including, inter alia, terrestrial, marine and other aquatic ecosystems and the ecological complexes of which they are part.
