### **Global Issues Local Arguments Third**

This part of the globalissues.org web site introduces the roles of non-governmental organizations, or NGOs and the problems that they have helped to both address and even played a part in creating.

### **Non-governmental Organizations on Development Issues ...**

Beef production is immensely wasteful in terms of energy, massive environmental degradation, and diverting good land and crops away from feeding people to feeding cattle. It is a massive sector, primarily to produce for unhealthy consumption, yet takes up so much of the world's resources. It used to be a luxury item but now is consumed regularly.

Examines the science and arguments of global warming skepticism. Common objections like 'global warming is caused by the sun', 'temperature has changed naturally in the past' or 'other planets are warming too' are examined to see what the science really says.

### **Arguments from Global Warming Skeptics and what the ...**

The global warming controversy concerns the public debate over whether global warming is occurring, how much has occurred in modern times, what has caused it, what its effects will be, whether any action should be taken to curb it, and if so what that action should be. In the scientific literature, there is a strong consensus that global surface temperatures have increased in recent decades ...

A SPECIFIC PROPOSAL. Nanofactories as Infrastructure The Internet was originally created by a governmental agency. 28 As it grew, it was supported by funding and technology from many sources, including Guardian (government), Commercial (corporate web sites and private users paying ISPs), and Information (hobbyist programmers, responsible among other things for creating the Internet Protocol).
