Hand Pallet Truck Inspection

Pallet Trucks and LOLER A pallet truck is designed to lift a pallet just clear of the ground so that it can be moved from one place to another. The HSE consider that the consequences of the load falling off are very low, therefore LOLER does not apply. The unit will however, still need inspecting under PUWER.

Do pallet trucks need a LOLER inspection? | HallmarkFIX

Pallet trucks are often treated as disposable items which is unfortunate when with a small amount of care and maintenance, they can last a surprisingly long time. In addition to the annual inspections required under HSE regulations, carrying out a daily check before use is a great way to make sure they remain in good working order, and that they're safe to use.

Pallet Truck Safety Checklist | HallmarkFIX

Check the pallet truck's wheels before loading it. This doesn't have to be done with each load, but it's wise to make a wheel inspection at the start of every shift. Look for imperfections such as wobbling or flat spots that make operation difficult and hazardous. Test the pallet truck's hydraulic lift before loading a pallet. Ensure the handle functions properly in the raise, lower and neutral positions.
