Hands on History - History Workshops in Schools Sussex ...

The Stone Age was a broad prehistoric period during which stone was widely used to make tools with an edge, a point, or a percussion surface. The period lasted for roughly 3.4 million years, and ended between 8700 BCE and 2000 BCE , [citation needed] with the advent of metalworking. Though some simple metalworking of malleable metals, particularly the use of gold and copper for purposes of ...

Stone Age - Wikipedia

The Stone Age was a time in history when early humans used toolsand weapons made out of stone. It lasted from when the first stone tools were made by our ancestors about 3.4 million years ago, until the introduction of metal tools a few thousand years ago.
