The lymphatic system consists of a network of hollow tubes that carry a protein-rich fluid called lymph. This system also includes lymph nodes, clusters of immune system cells that protect the body from infections. In addition to its protective role, the lymphatic system is essential for returning vital proteins and fluid to the bloodstream.

The notion of vampirism has existed for millennia. Cultures such as the Mesopotamians, Hebrews, Ancient Greeks, and Romans had tales of demons and spirits which are considered precursors to modern vampires. Despite the occurrence of vampire-like creatures in these ancient civilizations, the folklore for the entity known today as the vampire originates almost exclusively from early 18th-century ...

Old money is "the inherited wealth of established upper-class families (i.e. gentry, patriciate)" or "a person, family, or lineage possessing inherited wealth". The term typically describes a class of the rich who have been able to maintain their wealth over multiple generations, often referring to perceived members of the de facto aristocracy in societies that historically lack an officially ...
