Here we look at the external structure of cities - that is the land use and distributions of smaller
settlements around cities. You would be forgive for thinking that all cities arecarefully planned, but
this is not so.

Sugar was the main crop produced on plantations throughout the Caribbean in the 18th, 19th, and
20th centuries. Most islands were covered with sugar cane fields, and mills for refining it.The main
source of labor, until the abolition of chattel slavery, was enslaved Africans.After the abolition of
slavery, indentured laborers from India, China, and Java migrated to the Caribbean to mostly work

Alberta's economy is the sum of all economic activity in Alberta, Canada's fourth largest province by population. Although Alberta has a presence in many industries such as agriculture, forestry, education, tourism, finance, and manufacturing, the politics and culture of the province have been closely tied to the production of fossil energy since the 1940s.

Economy of Alberta - Wikipedia

A monopoly is a market in which a single seller sells a product which has no substitute. A monopoly (from the Greek word “mono” meaning single and “polo” meaning to sell).

Monopoly Case Study : Indian Railways And Its Performance

America’s newly burgeoning cities were the beneficiaries of innovations like canals and then railroads. They hiked up the speed, volume, and distance of shipments and accelerated the flow of wheat, ore, and lumber into urban markets.
