Slip, Trip, and Fall Prevention

Other institutional settings, such as nursing homes, provide a broad array of services to vulnerable populations. Although many of the available studies have focused on the hospital setting, medical errors present a problem in any setting, not just hospitals. Errors are also costly in terms of opportunity costs.

Executive Summary - To Err is Human - NCBI Bookshelf

Each year, more than 2.5 million people in the United States develop pressure ulcers. These skin lesions bring pain, associated risk for serious infection, and increased health care utilization. The aim of this toolkit is to assist hospital staff in implementing effective pressure ulcer prevention practices through an interdisciplinary approach to care.
