Oracle 11gR2 RAC Installation with GNS, without SCAN explains the Oracle 11g R2 RAC installation with GNS.. How to install Oracle 11g R2 RAC without SCAN Setup in DNS or GNS? This is mostly suited in three tier web environments where end users would not connect to the database directly and Application Servers can use Local listener Connections (10g like connections over VIPs).

SCAN Setup for Oracle 11g Release2(11gR2) RAC implementation
In this tutorial, let s take a look at how raw sockets can be used to receive data packets and send those packets to specific user applications, bypassing the normal TCP/IP protocols. If you have no knowledge of the Linux kernel, yet are interested in the contents of network packets, raw sockets ...

A Guide to Using Raw Sockets - open source for you
I can't find the source anymore. But I'm sure it said something like: "The default packet size for TCP sockets is 1500 bytes". Anyways, if it doesn't matter, I will use 10240 as the limit.

File transfer via socket - C++ Forum
Alright, I am writing this server for my own good and I am not doing it for school or anything like that. It is pretty simple and it works great with no problems and has done what it has needed to do.

C++ Server sending message back to clien - C++ Forum
send() Program Example . For the program example that demonstrates the use of the send() functions on server and client please refer to the previous chapter.. A Complete client-server program example . The following codes are server and client program examples that used the previous discussed Winsock functions and structures.

I’ve been looking for a pure python implementation of the ping command. Now that I found one, I am not sure if I want to use it, as it has a restriction: only privileged users can ping other hosts.I’ve used the ping command successfully as a normal user on all operating systems I have tried and never had an issue.

PEP 560: Core Support for typing module and Generic Types¶. Initially PEP 484 was designed in such way that it would not introduce any changes to the core CPython interpreter. Now type hints and the typing module are extensively used by the community, so this restriction is removed. The PEP introduces two special methods __class_getitem__() and __mro_entries__, these methods are now used by ...

Struktura WSADATA mało nas obchodzi.MAKEWORD(2, 2) oznacza numer wersji Winsock, jakiej chcemy używać czyli 2.2. Jeśli inicjalizacja się nie powiodła, wypisujemy odpowiedni komunikat. Następnym krokiem jest utworzenie gniazda. Jest to w Winsock podstawowy obiekt służący do komunikacji (stąd też nazwa tego API).
