What do geography degrees cover? The geography topics you cover will largely depend on whether you've opted for a degree focused on physical geography or human geography, though at undergraduate (bachelor's) level it is often possible to cover aspects of both before choosing a specialization. Human geography is concerned with the study of human societies - how they operate, develop, and ...

Physical geography (also known as geosystems or physiography) is one of the two major sub-fields of geography. Physical geography is the branch of natural science which deals with the study of processes and patterns in the natural environment like the atmosphere, hydrosphere, biosphere, and geosphere, as opposed to the cultural or built environment, the domain of human geography
