The third edition has been thoroughly updated and reorganized to meet the current units and standards of the American Society of Agricultural and Biological Engineers (ASABE).

Introduction to Agricultural Engineering Technology - A ...

The real nature of the problem is to find the conversion value(s) that will convert from volume (pints) to weight (pounds). To begin, refer to Appendix I and identify conversion factors that use both volume and weight. You should find that 1 cubic foot contains 7.48 gallons, and 1 gallon contains 8 pints.
