

Introduction To Geogebra Department Of Mathematics

Introduction To Geogebra Department Of

Geogebra is a fantastic free piece of software you can use to enhance your pupils' learning. It combines the ability of graph-plotting with dynamic geometry. Think of it as Omnigraph and The Geometer's Sketchpad in one program that is much easier to use, more intuitive and looks a lot better!

Geogebra resources - Great Maths Teaching Ideas

This course is recommended for students who have not mastered algebra concepts needed for college algebra. Topics will include linear and quadratic equations, absolute value equations and inequalities, linear and nonlinear inequalities, properties of exponents, rectangular coordinate systems, lines, circles, parabolas, systems of equations, polynomials and rational expressions, and functions.

Courses Offered by Department - Missouri State University

Mathematics Update Email . Teachers, administrators and mathematics coordinators are encouraged to send an email to mathematics@doe.virginia.gov to receive the VDOE Mathematics Update distributed by the mathematics office. Copies of recent emails are available as Word files.

Math Manipulatives (Page 1 of 3): Read a short essay about virtual manipulatives and their role in learning mathematics Virtual Manipulatives on the Web (Page 2 of 3): Below is a list of valuable virtual manipulatives for learning mathematics.; Math Manipulatives (Page 3 of 3): Calculators and PDA resources, including calculator tutorials, activities, software enhancements, and calculator apps ...

Math Manipulatives: Virtual Manipulatives on the Web

Numberphile Videos. Fantastically engaging, fun and informative maths videos made by Brady Haran and a variety of mathematicians. The Numberphile project has done a great deal to raise the profile of maths around the world.

RESOURCES - Great Maths Teaching Ideas

There are two main ways to get your class working hands-on with Geometry concepts. Try manipulatives, software, or a combination of both. Check out Geogebra for a great tech-approach to inquiry learning. To use the software in a lesson, have students create the diagram (or use a template).

Using Hands-On Inquiry in High School Geometry

TLF-IDL8099; Complete customer orders for a large hardware store by interpreting the rates and scales. Work in the gardening department to fill orders for mulch (expressed as rates) and help out with scale plans in the timber department.
