### **Invention By Design How Engineers**

Idea for an Invention may be developed on paper or on a computer, by writing or drawing, by trial and error, by making models, by experimenting, by testing and/or by making the invention in its whole form. Brainstorming also can spark new ideas for an invention. Collaborative creative processes are frequently used by engineers, designers, architects and scientists.

### **Invention - Wikipedia**

Engineers, as practitioners of engineering, are professionals who invent, design, analyze, build, and test machines, systems, structures and materials to fulfill objectives and requirements while considering the limitations imposed by practicality, regulation, safety, and cost. The word engineer (Latin *ingeniator*) is derived from the Latin words *ingeniare* ("to create, generate, contrive ...

Fascinating facts about the invention of the Mobile Phone by Richard Frenkiel and Joel Engel in 1983

### **Mobile Phone History - Invention of the Mobile Phone**

The Story: Probably no means of communication has revolutionized the daily lives of ordinary people more than the telephone. Simply described, it is a system which converts sound, specifically the human voice, to electrical impulses of various frequencies and then back to a tone that sounds like the original voice.

Eli Whitney invented the cotton gin, a simple device that transformed both agricultural and industrial America. The gin itself comprised a rotating drum with wire hooks or ratchet-like teeth that pulled cotton fibers between the teeth of a comb. The comb had teeth spaced too closely for seeds to pass through. Later in his career, Whitney invented the milling machine, which is the staple of ...

updated 11-19-2014 . High Mileage Carburetors. Many of us have heard that there were people years ago, back in the 60's(?), who developed very efficient "carburetors", that ran on fumes and got 100 mpg or more. I do remember an article in Popular Mechanics back in the 1960's which even got the cover photo for the month, telling about a guy who built a carburetor for his sedan which ...

Flex is proud to join OIN and help further the goals of the open source community. In our position spanning many industries, we are sensitive to the negative impact that the aggressive assertion of patents can have on innovation, and how excessive lawsuits can significantly dampen opportunities for collaboration, especially within the open source community.
