want to consider using a home colloidal silver generator and save a lot of money.

### **The Complete Truth About Ionic Silver Products Revealed**

Ionic silver is by far the most common type of silver supplement. It's made of silver ions in solution, usually with water. A silver ion is an atom of silver that is missing one electron. These ions are very small — so small that if an ionic solution is poured over a semi-permeable membrane, no residue or particulate will be left behind.

### **Colloidal vs. Ionic Silver Supplements | Activation ...**

Colloidal silver that has a high concentration of silver particles does not look like water because silver particles, even very small particles block light from passing through, making the liquid appear darker. The producers of ionic silver solution will tell you that colloidal silver should look like water.
