Introduction. DevConf is a community-driven, developer focused, one-day conference hosted annually. The aim of the conference is to provide software developers with a buffet of tools, practices and principles applicable to tackling current and future challenges in the South African software development environment.

DevConf ZA

Inexperienced programmers often think that Java's automatic garbage collection completely frees them from worrying about memory management. This is a common misperception: while the garbage collector does its best, it's entirely possible for even the best programmer to fall prey to crippling memory leaks.

Introduction. Instead of static contents that are indifferent, Java Servlet was introduced to generate dynamic web contents that are customized according to users' requests (e.g., in response to queries and search requests). However, it is a pain to use a Servlet to produce a presentable HTML page (via the out.prinltn() programming statements). It is even worse to maintain or modify that HTML ...
