JavaScript in Half an Hour (Without jQuery!)

Adding hours to Javascript Date object? Ask Question 316. 42. It amazes me that Javascript's Date object does not implement an add function of any kind. ... So adding 12 hours across, say, a Timezone change in the local timezone will still result in a time difference of exactly 12 hours.

datetime - Adding hours to javascript Date object? - Stack ...

Basically I want to create Open Hours for Store. The Store has open hours from 12:00 to 15:00 and from 17:00 to 22:00. I made it to display current time on the modal page where the "Enter" button is to show the current time, but I wish that during the non working hours the button to enter the site gets removed so that users can't enter the webpage.
