### **Matching the project manager's leadership style to project ...**

A project manager is a professional in the field of project management. Project managers have the responsibility of the planning, procurement and execution of a project, in any undertaking that has a defined scope, defined start and a defined finish; regardless of industry. Project managers are first point of contact for any issues or discrepancies arising from within the heads of various ...

### **Project manager - Wikipedia**

One of the most important factors promoting project success is the presence of an effective, engaged executive sponsor. This position has long been associated with project success in industry studies, yet a review of the literature describing actual practices around sponsorship suggest we have a long way to go to institutionalize the presence and practices of the sponsor role in our organizations.
