The Lunar Nodes also dictate what astrological signs we will have the Eclipses in, so as the Lunar Nodes settle into their new home, we can expect the next series of Eclipses to fall in the signs of Cancer and Capricorn. (There is an exception to this rule in January 2019 where we have the final Eclipse in Leo).

The Lunar Nodes Changing Signs November 2018 - Forever ...

Although the nodes are not "real" points in space, Hindu astrologers have been using the nodes for centuries. The basic idea behind the lunar nodes is this: when the moon travels northward and conjoins the north node, we arrive at the positive, creative, and evolutionary spiritual plane. We are pushed to let go of the past.

Lunar Nodes - Starcats

The nodes are most closely related to the symbolism and processes of the Moon because they represent points on the Moon's orbit around the Earth. But the nodes are also related to the Sun because of their relationship to the ecliptic. In other words, the nodes are the points where aspects of the lunar and solar principles connect.
