How Movie Marketing Works. The average production budget of a major studio movie reached \$70.8 million in 2007. But to sell that movie to the public, studios spent another \$35.9 on marketing for a total budget of \$106.6 million per picture [source: Friedman]. Hollywood relies on a few runaway hits each season to make up for the majority of films that fail to break even.

How Movie Marketing Works | HowStuffWorks

Audience research. There are seven distinct types of research conducted by film distributors in connection with domestic theatrical releases, according to "Marketing to Moviegoers: Second Edition.". Such audience research can cost \$1 million per film, especially when scores of TV advertisements are tested and re-tested.
