ABSTRACTThis paper investigates the design dimension of China's legal planning framework. It aims to identify the design principles which have been followed in practice, those design elements which have been considered by designers and planners as part of development control, and the extent to which urban design outcomes have been adopted in specific legal plans.

The design dimension of China's planning system: urban ...

Wu et al. determine the exemplar variable for all other variables. [106] presented a constrained hybrid PSO algorithm in order to find feasible solutions to the resource allocation problem. An elitist learning strategy module was introduced in the proposed algorithm to enhance the search efficiency of swarms and to mitigate premature convergence.
